Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Wednesday 13 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain, possibly heavy, becoming sleet or snow in areas.

Today:
A dry but cloudy start for most before a band of rain, heavy in places, moves in during the morning, heading north and east. Rain could become sleet or snow for some. Feeling cold with patchy ice first thing. Maximum temperature 6 deg C (43 deg F).

Tonight:
The day's rain stalling and strengthening in the evening, producing a wet night with heavy rain for most, especially in the west. Further snow possible, especially on the hills. Minimum temperature -1 deg C (30 deg F).

Thursday:
The rain, sleet and snow is likely to continue through the morning but should ease through the afternoon. Likely dry but cloudy for most by evening. Feeling cold. Maximum temperature 4 deg C (39 deg F).

Outlook for Friday to Sunday:
Friday dry but cloudy, with rain and strong winds moving from the west late. Continues through Saturday, clearing by evening, leaving Sunday a dry day with sunny spells.
